

## **The XII-th International Conference on Biologic Therapy**

### ***„Metastatic colorectal cancer. Shaping tomorrow's mCRC treatment paradigms“.***

Venue: The Lithuanian Academy of Sciences, Gedimino Ave. 3, 01103 Vilnius, Lithuania,  
Date: 30 November 2018.

#### Preliminary program

30 min „Role of Comprehensive Genomic Profiling for diagnostic and modern treatment possibilities“  
Dr. Ronen Brenner, Tel Aviv, Israel.

20 min „Impact of RAS/RAF status and tumor location in mCRC treatment“ – TBC.

30 min „Medical treatment strategies for patients with potentially resectable mCRC“ - prof.  
Sebastian Stintzing, Munich, Germany.

30 min „Extending OS in mCRC; optimizing sequencing“ - prof. Dr. Gerald Prager, Vienna, Austria.

30 min „Optimal sequencing in later lines of treatment mCRC“ - Prof. Julien Taieb, Paris, France.

30 min „The role of maintenance treatment in mCRC“ - prof. Dr. Gerald Prager, Vienna, Austria.

30 min „Rechallenge/reintroduction of chemotherapy mCRC“ - TBC

20 min „The role of immunotherapy in mCRC“ - TBC.

20 min „Liver directed therapies for mCRC“ – TBC
