

**The XIII-th International Conference on Biologic Therapy
„Metastatic colorectal cancer. Shaping tomorrow's mCRC treatment paradigms“.**

Venue: The Lithuanian Academy of Sciences, Gedimino Ave. 3, 01103 Vilnius, Lithuania,

Date: 30 November 2018.

Registration: 14:30-15:00

Final program

15:00-15:05 – Welcome speech

Chairmans: Dr. Alvydas Česas and prof. Sebastian Stintzing.

15:05-15:35 „Optimal sequencing beyond second line treatment of mCRC” “ - prof. Sebastian Stintzing, Munich, Germany.

15:35-15:50 Case presentation mCRC – Aušra Bankauskaitė, KUH.

15:55-16:05 Case presentation mCRC – Leonid Gatijatullin, NCI.

16:05-16:35 „Medical treatment strategies for patients with potentially resectable mCRC” - prof. Sebastian Stintzing, Munich, Germany.

16:35-16:50 - Case presentation mCRC – Anastasija Ranceva, VU Santaros clinic, Vilnius.

16:50-17:05 – Case presentation mCRC – Rasa Jančiauskienė, Lina Simaškaite, Lithuanian University of Health Sciences, hospital Kaunas clinics.

17:05-17:20 – Q&A

Coffee breake 20 min

Chairmans: Assoc. Prof. Rasa Jančiauskienė and Dr. Skaistė Tulytė.

17:40-18:10 Web presentation „The role of maintenance treatment in mCRC.

Rechallenge/reintroduction of chemotherapy mCRC” - prof. Dr. Gerald Prager, Vienna, Austria.

18:10-18:40 Web presentation „Extending OS in mCRC; optimizing sequencing” - prof. Dr. Gerald Prager, Vienna, Austria.

18:40-19:00 Free lecture: „Vermiform appendix is not *atavistic* in humans?” – R.Janciauskienė, Lithuanian University of Health Sciences, Kaunas.

19:00-19:30 „Role of Comprehensive Genomic Profiling for diagnostic and modern treatment possibilities” Dr. Ronen Brenner, Tel Aviv, Israel

19:30–19:50 Q&A

19:50 Closing remarks
