1ST WORLD DAY OF REGIONAL ANAESTHESIA & PAIN MEDICINE

WORLD DAY

Saturday, 27 January 2024

WELCOME MESSAGE

Dear Colleagues, Dear Friends

ESRA, together with its Sister Societies AFSRA, ASRA Pain Medicine, AOSRA and LASRA, is launching the **1st World Week of Regional Anaesthesia and Pain Medicine**, from Saturday 20th to Saturday 27th January 2024. During this week, Regional Anaesthesia (RA) and Chronic Pain physicians around the globe will connect together, to shine a spotlight on the critical fields of RA and Pain Medicine, under the inspiring theme “**Joining Hands for a Pain Free Future Worldwide**”. This week will also set the stage for its Highlighting Event; the Climax and Grand Finale will be the **1st World Day of Regional Anaesthesia & Pain Medicine**, which will take place on Saturday 27th January 2024, or at an alternative date during the aforementioned week. More than 100 cities, from 60 countries across all continents, will participate, with a common scientific program, aiming in learning, hands – on practice, interactivity and reflection between trainees and experts in RA & Pain Medicine, during Local Face to Face Meetings.

Pain affects countless lives and knows no boundaries, respecting neither age nor gender. RA & Pain Medicine have the potential to transform lives, offering relief, comfort, and hope to those in need. Our fields remain at the forefront, pioneering a future where pain is no longer a prevailing concern, and aiming to improving the quality of life for people everywhere.

Our initiative is dedicated to the celebration of collaboration and signifies our commitment to partnerships. It is a «Global Call to Action» that serves as a powerful reminder of the collective power we hold to improve access to care and alleviate suffering. By joining hands, we can advance research, share best practices, make a positive impact and enhance patients’ care! Together, we can create a world where effective pain management is a universal reality, ensuring that every individual can enjoy a life free from unnecessary pain!

In parallel to our initiative, let us also reflect on the progress we have made and the work that lies ahead. Dedication, expertise, and compassion are the driving forces behind the changes we still seek to make. Let us continue to join hands, share knowledge, and work together to ensure a pain free future for everyone, everywhere. The journey ahead may be challenging, but with unity and determination, we can turn our dream into a reality. Together, we can make a difference!!!

Thank you for your spirit of enthusiasm, for contributing to our mission fulfillment, and for being a part of this global movement.

Happy 1st World Day of Regional Anaesthesia and Pain Medicine!

With Cordial Greetings
